WIN!: Direct Secure Messaging Success Story

- Who:** Family Planning Council of Iowa (FPCI)
- When:** Intermittently, yearly
- Where:** Des Moines, FPCI office
- Why:** Interim Review of Sub-recipients. Evaluated medical records for Title X minimal standards.
- What:** Using Direct Secure Messaging through the IHIN to do medical record audits

- Benefits:** It is confidential, encrypted and secure.
- It is convenient and cost effective:
1. FPCI staff member does not have to travel to the clinic site to review medical records.
 2. The sub-recipient does not have to redact information when scanning to send in an unsecure email or fax.
